

Package: CyTOFpower (via r-universe)

June 12, 2026

Type Package

Title Power analysis for CyTOF experiments

Version 1.18.1

Description This package is a tool to predict the power of CyTOF experiments in the context of differential state analyses. The package provides a shiny app with two options to predict the power of an experiment: i. generation of in-silico CyTOF data, using users input ii. browsing in a grid of parameters for which the power was already precomputed.

CyTOFpower	<i>CyTOFpower: R-package to predict the power of a CyTOF experiment</i>
------------	---

Description

This package provides functions and a shiny app to predict the power of a CyTOF experiment.

Interactive shiny app to predict the power of a CyTOF experiment.

Usage

```
CyTOFpower()
```

Value

Interactive shiny app.

Examples

```
# Launch the shiny app
if (interactive()) {
  CyTOFpower()
}
```
